STILL IN STOCK

Wooden Wonders: Victoria's Timber Bridges

By Don Chambers¹

Timber bridge history is intrinsically connected to road and rail history. This book could be described as a showcase for design ingenuity or even a regional tour of Victoria. The asset of Australian hardwoods combined with simple stand-alone structure makes for compelling essays and dramatic black and white (as well as colour) photographs.

Undertaken as an exploration both for Dr. Don Chambers and research for the National Trust's Timber Bridge Study for the Trust's Timber Bridge Committee. If as in the case of the wooden rail bridge at Walhalla, a bridge is lost by bushfire or any other natural disaster, this book will serve as an important historical reference for future historians.
