**Spring, Spark & Steam: an illustrated guide to Australasian toy and model trains  
By Bruce MacDonald & the resources of the AMRM (Australian Model Railway Magazine)**

This book documents the beginnings of the model toy industry in Australia and New Zealand.

This book covers the pre-war and post- World War 2 period – when experienced model makers were leaving their regular employment to start cottage industries, producing models for a toy-starved public – up until the 1960s. As well as the details of fifty-five manufacturers such as Ferris, Maurlyn, Robilt, and Scorpion, the book has over six hundred full-colour photographs of many of the models produced and includes coverage of the retail outlets that were the public face of the industry.
